For All Time Critical Issues In Teaching Shakespeare

Ronald E. Salomone, James E. Davis

For All Time Critical Issues In Teaching Shakespeare:

For All Time? Paul Skrebels, Sieta van der Hoeven, 2002 *For All Time Critical issues in teaching Shakespeare* is a conversation about the continued place of Shakespeare in the classroom that explores how current critical theories inform our pedagogy. Among issues addressed by contributors are Shakespeare as a hegemonic force, Digital Shakespeare, Shakespeare through performance, Disrupted and disruptive Shakespeare, Shakespeare and the new aestheticism, Postcolonial Shakespeare, Shakespeare reinvented, Protecting Shakespeare, Shakespeare for the new millennium. Teaching Shakespeare Beyond the Centre K. Flaherty, P. Gay, L. Semler, 2013-03-05 Showcasing a wide array of recent innovative and original research into Shakespeare and learning in Australasia and beyond, this volume argues the value of the local and provides transferable and adaptable models of educational theory and practice. **Digital Games** Catherine Beavis, Joanne O'Mara, Lisa McNeice, 2012 *Digital Games Literacy in action* is the result of a wide ranging investigation into the educational possibilities involved in young people's games. From their creation in the classroom to analysing games and the world of games as text, academics and teachers are now taking seriously the serious play of young people. The contributors use the interaction between the theoretical frameworks of games as text and games as action to explore a wide range of issues relevant to the teaching of English and literacy. These include understanding games as media texts, the place of digital culture in young people's lives, the narrative and visual design components of games, exploring concepts of role play and identity in games, the potential for games to engage disengaged students and issues of gender and social interaction in game playing.

Teenagers and Reading Jacqueline Manuel, Sue Brindley, 2012 *Teenagers and Reading* Literary heritages, cultural contexts and contemporary reading practices brings together international research and practical perspectives on the current state of teenagers reading. The contributions by teachers, researchers and other educators explore the what, how, when, where and why of adolescents reading, advancing our understanding of the relationships between and among teenage readers, texts and contexts. **Teaching Australian Literature** Brenton Doecke, Larissa McLean Davies, Philip Mead, 2011 *What role should Australian literature play in the school curriculum? What principles should guide our selection of Australian texts? To what extent should concepts of the nation and a national identity frame the study of Australian writing? What do we imagine Australian literature to be? How do English teachers go about engaging their students in reading Australian texts?* This volume brings together teachers, teacher educators, creative writers and literary scholars in a joint inquiry that takes a fresh look at what it means to teach Australian literature. The immediate occasion for the publication of these essays is the implementation of *The Australian Curriculum: English* which several contributors subject to critical scrutiny. In doing so they question the way that literature teaching is currently being constructed by standards based reforms, not only in Australia but elsewhere. The essays assembled in this volume transcend the divisions that have sometimes marred debates about the place of Australian literature in the school curriculum. They all recognise the complexity of what secondary English teachers do in

their efforts to engage young people in a rich and meaningful curriculum They also highlight the need for both secondary and tertiary educators to cultivate an awareness of the cultural and intellectual traditions that mediate their professional practice and to encourage a critically responsive pedagogy English in Australia ,2007 **Acting It Out** Juliet Hart,Mark Onuscheck,Mary Christel,2016-09-13 In Acting It Out you ll discover how to use drama in your ELA and social studies classrooms to boost student participation and foster critical thinking With years of experience supervising arts integration programs in Chicago Public Schools authors Juliet Hart Mark Onuscheck and Mary T Christel offer practical advice for teachers in middle and high schools Inside you ll find Group activities to improve concentration harness focus and engage students of all abilities and learning styles in teamwork Close reading exercises that encourage students to think critically and build personal relationships with the text Strategies for integrating active approaches to dramatic literature such as improvisation and scene work Ideas for using dramatic literature as a springboard for studying history and interdisciplinary studies Annotated reading lists that highlight each play s content and recommended uses in ELA or social studies Throughout the book you ll also find handy tools such as reflection questions handouts and rubrics By implementing the strategies in this book and allowing students to step into different roles from a text you ll improve reading comprehension and energize your classroom **Taking Teaching Seriously** Christopher Bjork,D. Kay Johnston,Heidi A. Ross,2015-12-03 Taking Teaching Seriously expands and enriches discussions about teacher preparation in the United States Its authors describe the unique contexts for teacher preparation offered by liberal arts institutions and analyze the effects of these programs on their graduates and on K12 schools They emphasize that the goals and conditions for teacher preparation differ from larger public institutions in several key respects including supervisor student teacher relationships philosophical foundations and approaches to clinical fieldwork Taken together the essays provide compelling evidence that educational studies programs in liberal arts colleges and universities constitute a vital component of the teacher education system in the United States

Shakespeare Without Fear Mary Janell Metzger,2004 As a high school and college student Mary Janell Metzger sat through old school lectures that swamped Shakespeare in literary tradition and form leaving no breathing room for individual interpretation As a teacher she yearned to connect students to Shakespeare s plays and in Shakespeare Without Fear she tells you how she finally removed the barrier between text and inquiry by focusing on the rich interactive possibilities between student teacher and bard Shakespeare Without Fear offers methods that will get students emotionally and imaginatively involved with the plays while developing their capacity for critical judgment Ideal for the experienced teacher as well as for the English Education methods course Shakespeare Without Fear first debunks the idolatry and polarizing academic politics surrounding the study of Shakespeare and then allays reader anxieties by setting up the plays as engaging historical works instead of items to check off a cultural literacy list Next Metzger takes you into real classrooms for a complete look at how she and other educators teach several major works including Romeo and Juliet and Hamlet offering
