**Coastal Gardening in South Africa** Allan Haschick, 2014-10-24 Most conventional gardening books assume that everyone experiences the same conditions in their garden no matter where they live but this is seldom the reality Coastal Gardening in South Africa sets out to offer advice to gardeners who live in coastal suburbs towns and villages where strong winds salt laden air and often high humidity can play havoc with your planting scheme Many plants that grow happily on the Highveld for example or in the leafy suburbs shrivel and die when exposed to wind borne salt or harsh light reflected off the sea But this does not mean that coastal gardens have to be bleak and boring quite the contrary in fact The key is to understand your immediate environment and choose plants that will flourish in those conditions Coastal Gardening in South Africa is a guide to creating a thriving garden whether you live on the arid Weskus subtropical KZN or anywhere inbetween
