

# Five Steps to Academic Success

Whether you are an A student or are looking to improve your grades, these five steps will put you on the path to academic success—and a bright future!

## 1. Get organized

---

**Use a student planner.** Take your planner to every class and record daily assignments, quizzes, tests, important dates, activities, and appointments.

**Make daily to-do lists.** Put the most important tasks at the top. Cross things off as they get done, and put unfinished tasks on the next day's to-do list.

**Manage your time.** If you never seem to have enough time, identify activities you can eliminate, shorten, or postpone. *Never sacrifice sleep to get everything done.*

## 2. Succeed in class

---

**Have all homework done.** In many classes, homework is a significant portion of your final grade. Don't think of homework as something you should do—think of it as something you must do.

**Participate in class.** Participating makes class more interesting and helps keep your mind focused. Ask and answer questions and participate in class discussions.

**Ask for help.** If you're having difficulty with a class, your teacher will be happy to help, but you need to ask. If there's something else that's making it difficult for you to succeed (a bully, problems at home, a health issue), see your counselor.

Academic Advising in the Community College Terry U. O'Banion, 2019-12-10 Academic advising is the second most important function in the community college If it is not conducted with the utmost efficiency and effectiveness the most important function in the college instruction will fail to achieve its purpose of ensuring that students succeed in navigating the curriculum to completion The purpose of academic advising is to help students select a program of study to meet their life and vocational goals As such academic advising is a central and important activity in the process of education Academic advising occurs at least once each term for every student in the college few student support functions occur as often or affect so many students But while there is general agreement concerning the importance of academic advising for the efficient functioning of the institution and the effective functioning of the student there is little agreement regarding the nature of academic advising and who should perform the function In this seminal work on academic advising the authors of three overarching chapters address the key issues and challenges of academic advising followed by the authors of four of the most innovative and successful programs of academic advising in the nation
