To use the distributive property we distribute what is on the outside of the parentheses to the variables and constants on the inside of the parentheses using multiplication.

$$\begin{array}{l} 4(7s + 10) \\ 4 \cdot 7s \quad 4 \cdot 10 \\ 28s + 40 \\ \Rightarrow 28s + 40 \end{array}$$

It establishes a bridge between theory and praxis and revisits the objectives of learning and its modalities within the context of a rapidly evolving global world order. This volume includes perspectives from different countries on creating a dynamic and adaptive education system that encourages creativity, leadership, flexibility, and working in virtual as well as inclusive environments. The four sections include chapters that discuss creating meaningful learning environments, preparing teachers for new-age classrooms, the digital learning space, fostering change in classrooms, and importantly also includes cases and experiments from schools. The authors are teacher-educators, teachers, and researchers, and each chapter, while being deeply rooted in theory, is juxtaposed with informed practice, making the suggestions easy to implement in different settings.
