Mohammed and Islam Ignác Goldziher, 1917 Global Halal Perspectives: Past, Present and Future (UUM Press)

Risyawati Mohamed Ismail, 2020-06-01 Halal has become more than just an eating habit of Muslims around the world in today's global economy. It has evolved into a giant economic phenomenon which has affected the global ecosystem beyond the boundaries of religion, politics, culture, and ethnicity. Politics, various halal businesses, social entities, including geographical location, play a part to reflect the complexity of the halal ecosystem. Discussions on its various aspects are richly illustrated through interdisciplinary global perspectives from students and scholars working across disciplines: social sciences, religious studies, humanities, and sciences. *Global Halal Perspectives: Past, Present and Future* brings forth a special set of knowledge and information that even the public will find interesting. This book is the outcome of a research funded by the Ministry of Higher Education (MOHE) Malaysia through its Fundamental Research Grant Scheme (S O 13246) *Islamic Horizons*, 2003

The researchED Guide to Primary Literacy: An evidence-informed guide for teachers Stephen

Lockyer, 2024-10-25 researchED is an educator-led organisation with the goal of bridging the gap between research and practice. This accessible and punchy series, overseen by founder Tom Bennett, tackles the most important topics in education with a range of experienced contributors exploring the latest evidence and research and how it can apply in a variety of classroom settings. Literacy is one of the most powerful and transformative learning tools, making changes and improvements in literacy will have a direct impact on your work, your learning, and your aspirations across all subjects in the curriculum. In this book, Stephen Lockyer brings together contributions from expert writers including Clare Sealy, Emma Stokes, Neil Almond, and Andrew Percival to show how making tiny incremental changes with consistency and genuine purpose can have a big effect on your students, their literacy, and their learning. Each chapter has an abundance of ideas to take into your classroom and have a direct impact on the pupils. Islam, Modernity, and the Liminal Space Between Mark W.

Meehan, 2014-02-28 This book investigates the development and function of the Institute of Traditional Islamic Art and Architecture (ITIAA) in Amman, Jordan. A vertical case study using grounded theory methodology, the research creates a rich and holistic understanding of the Institute. Specific areas of study include the factors involved in the founding of the Institute within the context of Arab and Jordanian higher education, the role of traditional Islamic philosophy in the function of the Institute, and the role of the anthropological concept of liminal space in the clarification of students' values during the academic program. Data for the research came from thirty hours of interviews completed with over thirty individuals, a twenty-item survey completed by sixty-five students, classroom observations, and analysis of an array of documents from the League of Arab States, the Jordanian Ministry of Higher Education and Research, the Jordanian Accreditation Association, the World Islamic Science and Education University, and the Institute for Traditional Islamic Art and Architecture. In regard to the role of traditional Islamic philosophy, the study delineates how the combination of theological and philosophical commitments of

founders faculty and students combined to create a deep and pervasive role of traditional Islamic philosophy evidenced in classrooms interviews and documents Students faculty and staff reflected a vital commitment to Islamic understandings of education art and beauty The book concludes by noting the vital importance of such institutions as ITIAA in providing the space and means for Arab Muslims to understand their own culture assess others and form new versions of Arab Muslim culture that are viable and productive in the current age It is noted that transnational organizations such as the League of Arab States could help facilitate educational diversity by fostering the development of a second level of small traditionally focused institutions Such institutions can reinforce traditional values provide liminal experiences and facilitate creation of artifacts of liminal activity reflecting students ability to combine modern and traditional value systems
