Francis Bacon and the Rhetoric of Nature John C. Briggs,1989      Francis Bacon and the Rhetoric of Nature John C. Briggs,1989      Finding Nature's Order Susan Giesemann North,2007      Shakespeare's Theater of Nature Aaron Kitch,2025-03-06 Shakespeare's Theater of Nature argues that Shakespeare combined art and nature in new ways while experimenting with relations between words images and objects as sources of knowledge and pleasure Shakespeare's re-centering of nature as a source of theatrical representation in a range of plays follows debates in natural philosophy and theology about how to understand divinity in and through the order of nature ordo creationis Early chapters analyze early modern reframing of nature by printed books of botany cosmology and history as well Tudor interludes that center nature as a subject while later chapters offer readings of eight plays by Shakespeare that draw on classical medieval and early modern debates in natural philosophy and theology to create new modes of dramatic mimesis      The Cambridge History of Science: Volume 3, Early Modern Science David C.
