Free Agent The Unseen War 1941 1991:

Free Agent Brian Crozier,1993 **Secret State, Silent Press** Richard Keeble,1997 Keeble seeks to problematise the Gulf war of 1991 and argues controversially that there was no war at all Central to his argument is the notion of myth used in the sense of manufactured story and constructed illusion **Politics of Confrontation** Babak Ganji,2006-04-28 Did the United States know more than it acknowledges about growing unrest under the Shah in mid 1970s Iran Have historians of American Iranian relations focused too narrowly on prevailing historical theory and personal recollection In a period of escalating tension between the United States and Iran what can the two nations history of conflict tell us about their diplomatic future Covering Carter s policy from the end of the Shah s reign to the revolution under Ayatollah Khomeini Babak Ganji explores the nature of their perpetually antagonistic relations and the mistrust and misunderstanding that fuels it *Politics of Confrontation* is a penetrating critique of international relations theory within the historical framework of US Iranian relations as well as a thorough examination of American policy towards Iran It is the first in depth look at documents seized by revolutionary students from the American Embassy during the infamous hostage crisis and debunks the myth that US officials were unaware of the nature of opposition to the Shah or of Soviet influence on senior clerics These findings are an essential addition to the discourse of foreign policy theorists and invaluable for historians of the US Iran and the Cold War

War of the Black Heavens Michael Nelson,1997-12-01 International diplomacy and a changing global economy did not bring about the fall of the Iron Curtain Radio did and it was mightier than the sword Based on first hand interviews and documents from the Central Committee of the Soviet Communist Party Michael Nelson shows that Western radio principally the British Broadcasting Corporation Radio Free Europe Radio Liberty and the Voice of America were unrivaled forces in the fight against communism and the fall of the Iron Curtain The Communists did everything in their power to prevent the infiltration of Western thought into their world resorting to jamming radio signals assassinating staff and bombing stations The Russians for example decided to stop the mass production of short wave radios so that their citizens could not hear Western broadcasts *War of the Black Heavens* reveals that due to administrative incompetence short wave radio production continued making worthless many of the billions of dollars spent on jamming These radio programs introduced a forbidden exciting culture to millions of eager listeners Pop music talk shows news and information about consumer goods all relayed a message of the good life subtly undermining the values of the communist regimes Western radio actively connected listeners with the cultures of Europe and North America *War of the Black Heavens* describes an unheralded story of success and adds a new interpretation that helps us understand some of the most momentous political events of this century *Margaret Thatcher: Herself Alone* Charles Moore,2019-11-12 The masterful and definitive biography of Britain s first female prime minister reaches its climax with the story of her zenith and her fall and reveals a complex figure who had a lasting and lastingly controversial impact on her country and on history *The New York Times Book Review* How did Margaret Thatcher

change and divide Britain How did her model of combative female leadership help shape the way we live now How did the woman who won the Cold War and three general elections in succession find herself pushed out by her own MPs Charles Moore s full account based on unique access to Margaret Thatcher herself her papers and her closest associates tells the story of her last period in office her combative retirement and the controversy that surrounded her even in death It includes the fall of the Berlin Wall which she had fought for and the rise of the modern EU that she feared It lays bare her growing quarrels with colleagues and reveals the truth about her political assassination Moore s three part biography of Britain s most important peacetime prime minister paints an intimate political and personal portrait of the victories and defeats the iron will but surprising vulnerability of the woman who dominated in an age of male power This is the full enthralling story

Free Agent Brian Crozier,1993 **Margaret Thatcher** Charles Moore,2013-04-25 One of the best political biographies I have ever read Dominic Sandbrook Sunday Times Not For Turning is the first volume of Charles Moore s authorized biography of Margaret Thatcher the longest serving Prime Minister of the twentieth century and one of the most influential political figures of the postwar era Charles Moore s biography of Margaret Thatcher published after her death on 8 April 2013 immediately supercedes all earlier books written about her At the moment when she becomes a historical figure this book also makes her into a three dimensional one for the first time It gives unparalleled insight into her early life and formation especially through her extensive correspondence with her sister which Moore is the first author to draw on It recreates brilliantly the atmosphere of British politics as she was making her way and takes her up to what was arguably the zenith of her power victory in the Falklands This volume ends with the Falklands Dinner in Downing Street in November 1982 Moore is clearly an admirer of his subject but he does not shy away from criticising her or identifying weaknesses and mistakes where he feels it is justified Based on unrestricted access to all Lady Thatcher s papers unpublished interviews with her and all her major colleagues this is the indispensable fully rounded portrait of a towering figure of our times Thinker, Faker, Spinner, Spy David Miller,William Dinan,2007-06-20 The public relations industry is not just about celebrity gossip This book shows how whenever big business is threatened spin doctors lobbyists think tanks and front groups are on hand to push the corporate interest often at the public s expense Written by leading activists and writers this book reveals the secrets of the PR trade including deception the use of fake institutes spying and dirty tricks The impact can be devastating when the public is denied access to the truth the results are rising inequality and environmental catastrophe Exposing the misdeeds of famous companies including Coca Cola British Aerospace Exxon and Monsanto and revealing information about the covert funding of various apparently independent think tanks and institutes the authors offer a guide to campaigns that can help us roll back corporate power and resist deceptive PR State ,1995 **Britain's Secret Propaganda War** Paul Lashmar,James Oliver,1998 Britain s Secret Propaganda War is the first book to be written about The Foreign Office s Information Research Department IRD an important chapter in the history of the Cold War The narrative is driven by actual

accounts of IRD covert operations and includes a number of exclusives The IRD was set up under the Labour Government in 1948 and clandestinely financed from the Secret Intelligence Service budget A large organisation with close links to MI6 with whom it shared many personnel it waged a vigorous covert propaganda campaign against Eastern Bloc Communism for nearly thirty years using journalists politicians academics and trade unionists none of whom were unwitting Such famous names as George Orwell Denis Healey Stephen Spender Bertrand Russell and Guy Burgess helped or backed the work of IRD

Demokratizatsiya ,1996 **Secret Empire** J. Michael Waller,1994-10-02 SCOTT copy 1 from the John Holmes Library collection **The Rise and Fall of the Soviet Empire** Brian Crozier,1999 For more than 80 years the Soviet Empire cast an ever lengthening shadow across the face of the world Lenin s ruthless legacy consumed Eastern Europe and toppled governments on virtually every continent Yet at the moment when the Empire appeared to have reached its zenith it collapsed like a house of cards Brian Crozier s definitive history of the Soviet Empire is a chilling account of an ideology that haunted our century Henry Kissinger In this seminal work the eminent British writer and historian Brian Crozier tells the brutal history of the Soviet Empire its birth life and sudden death The book begins at the beginning in 1917 when the oversized dreams of Lenin and the happenstance of events conspired to change the course of history In meticulous detail Crozier follows the Soviet conquests across Europe and into Asia Africa and the Western Hemisphere He uses recently declassified information from Soviet archives to add texture and depth to familiar parts of the story the betrayal at Yalta the terror of Stalin the tragedy of Hungary the split with China the false hope of Prague Spring the rise of Castro the invasion of Afghanistan and the crumbling of the Berlin Wall Revealed along the way is the dark underside of a regime whose march toward supremacy resulted in the loss of tens of millions of lives The book concludes with reflections on the extraordinary disintegration of Lenin s utopia and the seemingly endless chaos left in its wake Provocative comprehensive and majestic in scope The Rise and Fall of the Soviet Empire is the definitive account of history s most turbulent days Apartheid's Friends James Sanders,2006 Very little has been written about the South African secret intelligence but revelations to the Truth and Reconciliation Commission and the new culture of confessions now make that possible James Sanders has gathered classified documents and interviewed ex operatives since 1997 and has pieced together an extraordinary unsavoury picture of the Intelligence Service both inside South Africa and overseas He reveals evidence of state sponsored murder not only to intimidate the ANC but also to allow hard men within the police and the armed forces to let off steam He reveals that Republican political candidates in the US were assisted in elections against anti Apartheid Democrats He shows that South Africa supplied Argentina with weapons during the Falklands War and that Harold Wilson s surprising outbursts when he claimed that South African intelligence agents were trying to bring down his government were based on hard evidence At operational level South African Intelligence had intimate links with counterparts in the CIA British Intelligence and other agencies worldwide Apartheid s Friends not only provides an insight into a dark area of South Africa s past it is also an

important contribution to the international history of secret service **Espionage, Security, and Intelligence in Britain, 1945-1970** Richard James Aldrich, 1998 Attempts to offer a sound documentation of the post war development activities and significance of the British secret service from the end of WWII through 1970 Instead of a chronological survey tracing developments over time a functional approach has been taken which emphasizes the roles and responsibilities of different services and departments Contains sections on organizations scientific and atomic intelligence spy flights management security special operations and black propaganda and liaison and deception Annotation copyrighted by Book News Inc Portland OR *Books, Libraries, Reading, and Publishing in the Cold War* Library of Congress. Center for the Book, 2001

Gangs, Counter-gangs Don Veitch, 1997 **The KGB Lawsuits** Brian Crozier, 1995 **A Century of Spin** David Miller, William Dinan, 2008 Uncovers the secret history of the PR industry This book charts the relentless rise of the public relations industry and how it has transformed our society Revealing the roots of the PR movement in the years leading up to the First World War it sh

The Struggle Against the Bomb Lawrence S. Wittner, 1993 Toward Nuclear Abolition presents the inspiring dramatic story of how citizen activists helped curb the arms race and prevent nuclear war Examining events from 1971 to the present the author continues the account he began in two earlier volumes *One World or None* and *Resisting the Bomb* The book shows how pressure from the Nuclear Freeze campaign in the United States the European Nuclear Disarmament campaign and comparable movements around the world foiled the nuclear ambitions of hawkish government officials and forced them toward nuclear arms control and disarmament A leading historian and peace researcher the author combines extensive scholarly research with a pathbreaking account of how the largest mass movement of modern times saved the world from nuclear annihilation
