Date of Submission: June 2025

Acknowledgment

I want to express my sincere gratitude to my academic mentors and the National University of Bangladesh for their guidance and support throughout this research project. I am also thankful to the SME owners in Dhaka, Chattogram, and Rajshahi, who participated in the interviews and provided valuable insights. Without their cooperation, this research would not have been possible.

Abstract

Small and Medium-Sized Enterprises (SMEs) play a crucial role in the economic development of developing countries such as Bangladesh. However, many SMEs face challenges related to financial sustainability due to inadequate accounting practices. This research examines the significance of accounting for the success and growth of SMEs in Bangladesh, with a focus on its impact on economic decision-making, access to financing, regulatory compliance, and long-term sustainability.

The study employs a mixed-method approach, gathering primary data from SME owners and accountants, as well as secondary data from published literature and government sources. The findings indicate that effective accounting systems can significantly improve the performance and growth of SMEs. However, challenges such as a lack of training, limited awareness, and insufficient infrastructure hinder the adoption of these systems.

The paper concludes with recommendations to strengthen the accounting ecosystem for small and medium-sized enterprises (SMEs) in Bangladesh.

Keywords: Accounting, SMEs, Bangladesh, financial management, developing countries, sustainability, access to finance

1. Introduction

1.1 Background

Small and Medium-Sized Enterprises (SMEs) form the backbone of most developing economies. In Bangladesh, they are even more crucial, accounting for approximately 25% of the GDP and employing over 7.8 million people. Despite their critical role, SMEs often face barriers such as limited access to finance, poor financial planning, and inadequate record-keeping, all of which are linked to a weak accounting foundation.

1.2 Problem Statement

In Bangladesh, many small and medium-sized enterprise (SME) operators either struggle to maintain proper accounting records or rely on informal systems that fail to capture accurate financial data. This absence of effective accounting practices undermines business performance, hinders access to credit, affects tax compliance, and diminishes investor confidence.
