HIJACKED JETS DESTROY THE TWIN TOWERS

By C. Lee

NEW YORK (AP) — In a hours-long sequence of destruction, terrorists hijacked two airliners and crashed them into the World Trade Center in a coordinated series of attacks on September 11 that brought terror to this nation.

All flights were grounded at Lashbury Field as the nation's police was still trying to figure out what happened to the coordinated terrorist attacks in New York and Washington. Security was heightened at government and military facilities around the country and major downtown office buildings were evacuated.

For many people, the attacks were the biggest news story of their lifetime. About all who experienced it can remember where they were when they heard of the attacks.

Newspaper Layout and Design Daryl R. Moen, 1984 *Handbook of Visual Communication* Kenneth L. Smith, Sandra Moriarty, Keith Kenney, Gretchen Barbatsis, 2004-12-13 This *Handbook of Visual Communication* explores the key theoretical areas in visual communication and presents the research methods utilized in exploring how people see and how visual communication occurs. With chapters contributed by many of the best-known and respected scholars in visual communication, this volume brings together significant and influential work in the visual communication discipline. The theory chapters included here define the twelve major theories in visual communication scholarship: aesthetics, perception, representation, visual rhetoric, cognition, semiotics, reception theory, narrative, media aesthetics, ethics, visual literacy, and cultural studies. Each of these theory chapters is followed by exemplar studies in the area demonstrating the various methods used in visual communication research, as well as the research approaches applicable for specific media types. The *Handbook* serves as an invaluable reference for visual communication theory, as well as a useful resource book of research methods in the discipline. It defines the current state of theory and research in visual communication and serves as a foundation for future scholarship and study. As such, it is required reading for scholars, researchers, and advanced students in visual communication, and it will be influential in other disciplines in which the visual component is key, including advertising, persuasion, and media studies. The volume will also be useful to practitioners seeking to understand the visual aspects of their media and the visual processes used by their audiences. **Typography and Design for Newspapers** Rolf F. shapes our thoughts in ways we've long taken for granted. Whether we listen to National Public Radio in the morning, view the lead story on the Today show, read the morning newspaper headlines, stay up to the minute with Internet news, browse grocery store tabloids, receive Time magazine in our mailbox, or watch the nightly news on television, journalism pervades our daily activities. The six-volume Encyclopedia of Journalism covers all significant dimensions of journalism, including print, broadcast, and Internet journalism. U.S. and international perspectives, history, technology, legal issues, and court cases, ownership, and economics. The set contains more than 350 signed entries under the direction of leading journalism scholar Christopher H. Sterling of The George Washington University. In the A to Z volumes 1 through 4, both scholars and journalists contribute articles that span the field's wide spectrum of topics, from design, editing, advertising, and marketing to libel, censorship, First Amendment rights, and bias to digital manipulation, media hoaxes, political cartoonists, and secrecy and leaks. Also covered are recently emerging media such as podcasting, blogs, and chat rooms. The last two volumes contain a thorough listing of journalism awards and prizes, a lengthy section on journalism freedom around the world, an annotated bibliography, and key documents. The latter edited by Glenn Lewis of CUNY Graduate School of Journalism and York College. CUNY comprises dozens of primary documents involving codes of ethics, media and the law, and future changes in store for journalism education.
