**The Death of Authentic Primitive Art** Shelly Errington,2023-09-01 In this lucid witty and forceful book Shelly Errington argues that Primitive Art was invented as a new type of art object at the beginning of the twentieth century but that now at the century s end it has died a double but contradictory death Authenticity and primitivism both attacked by cultural critics have died as concepts At the same time the penetration of nation states the tourist industry and transnational corporations into regions that formerly produced these artifacts has severely reduced supplies of primitive art bringing about a second death Errington argues that the construction of the primitive in the nineteenth and twentieth centuries and the kinds of objects chosen to exemplify it must be understood as a product of discourses of progress from the nineteenth century European narrative of technological progress to the twentieth century narrative of modernism to the late twentieth century narrative of the triumph of the free market In Part One she charts a provocative argument ranging through the worlds of museums art theorists mail order catalogs boutiques tourism and world events tracing a loosely historical account of the transformations of meanings of primitive art in this century In Part Two she explores an eclectic collection of public sites in Mexico and Indonesia a national museum of anthropology a cultural theme park an airport and a ninth century Buddhist monument newly refurbished to show how the idea of the primitive can be used in the interests of promoting nationalism and economic development Errington s dissection of discourses about progress and primitivism in the contemporary world is both a lively introduction to anthropological studies of art institutions and a dramatic new contribution to the growing field of cultural studies

**Building on Batik** Michael Hitchcock,Wiendu Nuryanti,2016-12-05 The word batik is possibly of Malay origin from the word tik meaning

to drip or to drop The term is applied to a resist dye technique invented independently in locations as diverse as Ancient Egypt Japan and Turkestan Batik is a remarkably flexible textile technique and is suited to small scale methods of production but demand from the fashion and tourism industries is increasing This volume brings together the experiences and concerns of the international community of batik producers It gives voice to their suggestions for ensuring that the producers of this traditional craft are integrated into its increasingly global production rather than excluded from it Building on the work of batik designers and producers the book discusses the emergence of a global craft consciousness Batik producers report on innovative measures taken both individually and collectively to hold their market position while commercial producers frequently annex and mass produce traditional batik design The book concludes with a discussion of marketing and production innovations and tourism which enable the producers of batik to maintain the integrity of their designs whilst harnessing the benefits of new commercial forms
