**Essentials of World Regional Geography** Jesse H. Wheeler, J. Trenton Kostbade, 1995      **WORLD REGIONAL GEOGRAPHY** REBECCA. WEST, 2022      **Essentials of World Regional Geography** George White, Joseph Dymond, Elizabeth Chacko, Michael Bradshaw, 2010-03-29 This shorter version of the highly successful Contemporary World Regional Geography 3e gives readers a fresh new approach that combines fundamental geographical elements internal regional diversity and contemporary issues This approach allows serious discussion of cultural and environmental issues as well as political and economic issues The main innovation in this completely rewritten text is in the ordering of the material covered While other texts cut photos illustrations and boxed material from their WRG books this essentials version is a completely rewritten text by the authors of Contemporary World Regional Geography 3e Each of the nine regional chapters opens with a one or two page map of the region short accounts of people or events to provide a personal flavor of the region an outline of the chapter contents and a short section placing the region in its wider global context Each regional chapter is consistently organized by three sections The first section summarizes the distinctive physical and human geographies of the region the second section explores the internal diversity of the region at subregional selected country and local levels The third section focuses on a selection of contemporary issues that are important to the people of each region and frequently have implications for the rest of the world Each regional chapter follows the same framework allowing students to easily make comparisons from one world region to the next Students are encouraged to consider what it means to be part of a global community and to develop their geographical understandings of world events The authors have created a text that is readable with a consistent structure within chapters containing superior maps and illustrations and finally to offer a concise and more affordable text      *Essentials World Regional Geography* Wheeler, 1993-05-01      **Essentials of World Regional Geography** George W. Salter, Joseph J. Hobbs, Jesse H Wheeler, Jr., J Trenton Kostbade, 2002-08 This edition focuses on the phenomenon of globalization This perspective has been prompted in large part by the almost worldwide financial crisis that began in Southeast Asia in 1997 swept much of Asia in the following year and rocked Russia in 1998 The authors anticipate that social and political unrest and impacts on the global exchange of ideas goods and services prompted by this economic turmoil will have long lived effects Students therefore will benefit greatly from the currency of this text      *Salter/hobbs' Essentials of World Regional Geography* Christopher L.
