Labyrinths Robert Morris Minimalism And The 1960s:

Labyrinths Maurice Berger,1989 Om den amerikanske billedhugger som er en af de ledende repr sentanter for minimal art *Labyrinths* Maurice Berger,1990-05-01 Traces the career of the American sculptor discusses the philosophical foundations of the work and presents examples of his sculptures installations and environments *Minimalism* James Meyer,James Sampson Meyer,2004-01-01 Critic and art historian Meyer a leading authority on Minimalism examines the style from its inception to its broader cultural influence This sourcebook features an excellent selection of nearly 300 color and b w images to illustrate the surprising variety of the work **Against Ambience and Other Essays** Seth Kim-Cohen,2016-03-10 Against Ambience diagnoses in order to cure the art world s recent turn toward ambience Over the course of three short months June to September 2013 the four most prestigious museums in New York indulged the ambience of sound and light James Turrell at the Guggenheim Soundings at MoMA Robert Irwin at the Whitney and Janet Cardiff at the Met In addition two notable shows at smaller galleries indicate that this is not simply a major donor movement Collectively these shows constitute a proposal about what we wanted from art in 2013 While we re in the soft embrace of light the NSA and Facebook are still collecting our data the money in our bank accounts is still being used to fund who knows what without our knowledge or consent the government we elected is still imprisoning and targeting people with whom we have no beef We deserve an art that is the equal of our information age Not one that parrots the age s self assertions or modes of dissemination but an art that is hyper aware vigilant active engaged and informed We are now one hundred years clear of Duchamp s first readymades So why should we find ourselves so thoroughly in thrall to ambience Against Ambience argues for an art that acknowledges its own methods and intentions its own position in the structures of cultural power and persuasion Rather than the warm glow of light or the soothing wash of sound Against Ambience proposes an art that cracks the surface of our prevailing patterns of encounter initiating productive disruptions and deconstructions **Minimal Art and Artists in the 1960s and After** Laura Garrard,2007 All the main practitioners and theoreticians of the still influential 1960s Minimal art are studied here including Frank Stella Robert Ryman Dan Flavin and Eva Hesse Chapters include Minimal aesthetics Minimal painting and painters and Minimal art and land artists *Reclaiming Female Agency* Norma Broude,Mary D. Garrard,2005-04-11 Reclaiming Feminine Agency identifies female agency as a central theme of recent feminist scholarship offers 23 essays on artists issues from the Renaissance to the present written in the 1990s after *Systems We Have Loved* Eve Meltzer,2013-07-02 By the early 1960s theorists like L vi Strauss Lacan Foucault and Barthes had created a world ruled by signifying structures and pictured through the grids of language information and systems Artists soon followed turning to language and its related forms to devise a new conceptual approach to art making Examining the ways in which artists shared the structuralist devotion to systems of many sorts *Systems We Have Loved* shows that even as structuralism encouraged the advent of conceptual art it also raised intractable problems that artists

were forced to confront Considering such notable art figures as Mary Kelly Robert Morris Robert Smithson and Rosalind Krauss Eve Meltzer argues that during this period the visual arts depicted and tested the far reaching claims about subjectivity espoused by theorists She offers a new way of framing two of the twentieth century s most transformative movements one artistic one expansively theoretical and she reveals their shared dream or nightmare of the world as a system of signs By endorsing this view Meltzer proposes these artists drew attention to the fictions and limitations of this dream even as they risked getting caught in the very systems they had adopted The first book to describe art s embrace of the world as an information system *Systems We Have Loved* breathes new life into the study of conceptual art

Minimalism DesignSource Encarna Castillo,2004-09-28 The term Minimalism has not always been used in a favorable sense especially in architecture and even today it may be the cause of some confusion and ambiguity The problem comes from the word s use in defining a creative current school or trend when in fact it refers to an aesthetic At the same time this aesthetic is not chronologically well defined either and moreover interacts with different disciplines This explains why we find minimalist buildings in periods very far apart from each other and in architects as different as Tadao Ando Eduardo Souto de Moura Jacques Herzog Pierre de Meuron or Luis Barrag n among others

Minimalism DesignSource investigates the minimalism movement covering the last years of the decade of the 1990s and the first years of the twenty first century to inquires into the origins of the term minimalism and in how the minimalism phenomenon played out in other fields like art painting fashion and sculpture has affected minimalism in architecture define the result of the use of pure and simple lines the reduction of language elements and as far as architecture is concerned the investigation of the treatment of space and of building possibilities

The 1980s Maurice Berger,2007 In his introduction to *The 1980s* An Internet Conference moderator Maurice Berger writes As Fredric Jameson reminds us in his essay *Periodizing the 1960s* decades are never neat clearly defined episodes Their boundaries are porous their roots long their implications far reaching their stories a jumble of events that historical orthodoxy all too easily erases overestimates or devalues For the purposes of this conference then *The 1980s* serves as an historical hook a convenient means for focusing on a constellation of events sensibilities cultural objects methodologies and social movements that took form in the United States in the era roughly between the late 1970s and early 1990s Contributors include Alexander Alberro Max Becher Dan Cameron Mary Kelly Wayne Koestenbaum David A Ross Irving Sandler Carolee Schneemann Carol Squiers Oliver Wasow Linda Yablonsky and others

Andrea Robbins and Max Becher Maurice

Berger,2008 This exhibition and catalog present the first examination of the portrait photographs of Andrea Robbins and Max Becher The artists portraits like their radical landscapes and city scenes are powerfully evocative boldly subverting our expectations of the discipline of portraiture Rather than capturing the visual essence of a sitter they reveal identity to be multifarious transitive and culturally and historically bound Robbins and Becher capture their subjects in ways that transform enhance and accentuate social and cultural meaning They do so with the full complicity and respect of the people they photograph They spend weeks living with each community they document They immerse themselves in the stories of its citizens and history They interview its residents and participate in their rituals and customs They photograph them in various active stages of work play and home life Most important they allow their subjects to represent themselves not only as they would like to be seen but also in ways that illuminate the complexity of their humanity By seeing identity as volatile mutable and contingent these improbable portraits remind us that who we are is as much a matter of choice as destiny BOOK JACKET
