,1978 *Malaysian Business* ,1999 *China's Digital Nationalism* Florian Schneider,2018-08-16 Nationalism in China as
much as elsewhere is today adopted filtered transformed enhanced and accelerated through digital networks And as we have
increasingly seen nationalism in digital spheres interacts in complicated ways with nationalism on the ground If we are to
understand the social and political complexities of the twenty first century we need to ask what happens to nationalism when
it goes digital In China s Digital Nationalism Florian Schneider explores the issue by looking at digital China first hand
exploring what search engines online encyclopedias websites hyperlink networks and social media can tell us about the way
that different actors construct and manage a crucial topic in contemporary Chinese politics the protracted historical
relationship with neighbouring Japan Using two cases the infamous Nanjing Massacre of 1937 and the ongoing disputes over
islands in the East China Sea Schneider shows how various stakeholders in China construct networks and deploy power to
shape nationalism for their own ends These dynamics provide crucial lessons on how nation states adapt to the shifting
terrain of the digital age and highlight how digital nationalism is today an emergent property of complex communication
